Categories: Goulds Booster Skids

PRODUCT DESCRIPTION

The AQUAFORCE™ e-HVX & e-HVXR Packaged Booster Systems are advanced variable speed pumping stations, featuring two or three e-SVX Series multistage vertical Smart Pumps. Each pump is equipped with a

hydrovar® X Smart Motor, enabling variable speed operation. These systems enhance user comfort by reducing noise emissions and minimizing “water hammer” through gradual pump staging and shutdown. All pumps are mounted on a single base, with
individual shut-off and check valves. The system is interconnected by suction and delivery manifolds, and the control panel is securely attached to the same base with a bracket.

Estimated delivery is 3 to 4 weeks - Please contact us for current delivery
