Part Number eSV Series

PRODUCT DESCRIPTION

E-SV PUMP:

Goulds e-SV pump fabricated vertical multi-stage pump is an energy saving, non-priming pump coupled to a standard premium-efficient motor.

It's built to withstand a variety of, mechanically aggressive and high temperature liquids, and is designed to extend uptime and help reduce

lifecycle costs in a wide range of demanding applications.

The e-SV range of pumps features 11 models, and each can be specially configured for a wide range of environments. What’s more, when an e-SV is paired with a Hydrovar® or Aquavar® IPC variable speed drive, it provides energy saving increases up to 70% vs. fixed speed, while reducing installation time.

Estimated delivery is 3 to 4 weeks
