PRODUCT DESCRIPTION

The e-SVI offers a range of shaft seals to handle high temperatures,

www.pfcestore.com - 763-425-7890 / 800-328-2350

pressures and aggressive liquids. The e-SVI's design allows the removal of the standard mechanical seal without having to remove the motor thus reducing repair time. Also available is an easy to replace pre-assembled cartridge seal configuration ensuring the seal components will never be assembled incorrectly. The inducer is a standard feature offered to allow for reliable low level pumping.

Estimated delivery 3 to 4 weeks
