PRODUCT DESCRIPTION

The e-SVX Smart Pump Series, is one of the highest efficiency multistage pumps on the market today. This fabricated vertical multistage pump is also easy to install and economical to maintain.

Powered by Xylem's hydrovar® X Smart Motor, e-SVX Smart Pumps offer customizable pumping solutions designed to deliver ultra-premium efficiency, connectivity, and simplicity with flow rates up to 640 GPM and Head up to 1200 ft.

e-SVX Smart Pumps integrate decades of expertise and know-how in pump technology to bring the right combination of motors, variable speed drive and hydraulic pumps in one comprehensive, highly efficient package. The e-SVX is built to withstand a variety of mechanically aggressive and high temperature liquids such as glycol, oils/solvents, and more. It features 10 different sizes and each can be specially configured for a wide range of environments. It's an ideal solution for residential, light commercial, industrial, agricultural, and OEM water supply as well as HVAC applications.
