Model Number e-SVE

PRODUCT DESCRIPTION

Goulds VFD Pump, low loss and increased control make the e-SVE series a good choice in applications and systems where fixed speed pumps are commonly used. The e-SVE series is easy to integrate in control and regulation loops thanks to the wide availability of compatible communication protocols, including analog and digital inputs. The pump is supplied with a pressure sensor.

www.pfcstore.com - 763-425-7890 / 800-328-2350

Ease of use and commissioning e-SVE has an intuitive interface that guides the user through the installation, and a practical area to assist with connections. The control system is integrated and no additional external electrical panel is required.

Estimated delivery is 3 to 4 weeks
