Model Number 99080197

Part Number CM 1-9 A-S-I-E-
AQQV E-A-A-N

PRODUCT DESCRIPTION

Grundfos CM pump has been created with compactness, flexibility and reliability as its central features. This horizontal multistage close-coupled pump is a compact, reliable and quiet pump designed to work in a variety of applications.

The difference between the CM and the CME pump ranges is the motor. CM pumps are fitted with mains-operated motors, whereas the motors for CME

www.pfcstore.com - 763-425-7890 / 800-328-2350

pumps have an integrated frequency converter and PID controller.

A Grundfos engineered mechanical shaft seal has been designed to eliminate industry-wide problems with shaft seals sticking where SIC-SIC seal faces are used. The solution builds on both the implementation of a rotation stop on the stationary ring and different surface finishing on both the stationary and rotating rings.

The CM and CME pumps are available in cast iron or stainless steel

- AISI 304/DIN 1.4301 stainless steel for water and non-corrosive liquids
- AISI 316/DIN 1.4401 stainless steel offers
