**Part Number** CM 5-2 A-S-I-V-  
AQQV B-A-A-N

## PRODUCT DESCRIPTION

Grundfos CM pump has been created with compactness, flexibility and reliability as its central features. This horizontal multistage close-coupled pump is a compact, reliable and quiet pump designed to work in a variety of applications.

The difference between the CM and the CME pump ranges is the motor. CM

[www.pfcstore.com](http://www.pfcstore.com) - 763-425-7890 / 800-328-2350

pumps are fitted with mains-operated motors, whereas the motors for CME pumps have an integrated frequency converter and PID controller.

A Grundfos engineered mechanical shaft seal has been designed to eliminate industry-wide problems with shaft seals sticking where SIC-SIC seal faces are used. The solution builds on both the implementation of a rotation stop on the stationary ring and different surface finishing on both the stationary and rotating rings.

The CM and CME pumps are available in cast iron or stainless steel

- AISI 304/DIN 1.4301 stainless steel for water and non-corrosive liquids
- AISI 316/DIN 1.4401 stainless steel offers

Product photo could vary from the actual product

**Estimated delivery is 3 to 4 weeks**
