## PRODUCT DESCRIPTION

Grundfos LC 231 Compact level controller offer a comprehensive range of features for control and monitoring of pumps in water and wastewater applications.

The LC 231 pump controller are designed for level control, monitoring and protection of Grundfos pumping systems one pump or two pumps starting

[www.pfcstore.com](http://www.pfcstore.com) - 763-425-7890 / 800-328-2350

direction-line.

The LC 231 pump controller can be used in various types of empty or filling applications (e.g. waste water transport, drainage or tank filling in water supply).

The set-up of the control is easily done either by the predefined application settings or via the step-by-step start-up wizard in the intuitive Grundfos GO app, using Bluetooth Smart technology directly from a smart device (no additional remote required). With the Grundfos GO app, all detailed pump settings can be easily being configured, monitored and commissioned. Even without using the app, you have the option directly from display to change the operation mode from auto to manual start/stop and adjusting the level setting.

The controller is equipped with configurable input/output terminals, giving full flexibility for all applications. Daily control, supervision and commissioning is straightforward with the intuitive and easy-to-use user interface. This saves you valuable time when getting started, and in your daily interaction with pumps and the controller.

The controller integrates seamlessly into the Grundfos range of communication modules, ensuring an easy fit into just about any supervisory system (SCADA).

With the built-in motor protection and current measurement, the LC 231 pump controller provide a service indicator function that helps keep track of when pump service is needed.

The controller maintains a detailed alarm and warning log with the last 20 alerts. The alarm log can be accessed remotely via SCADA. You can also use Grundfos GO to inspect the logs in localized, translated text for easy troubleshooting and remedial measures at the pumping station.
