PRODUCT DESCRIPTION

Micropump GAX21

Brand new

All Sales Final

I-Drive IMS The I-Drive IMS is an electromagnetic drive for Micropump Series GA, GJ (N21,N23), GJR, and CA pumps. It is a very compact, high-performance drive that enables our pumps to address a wide range of

www.pfcstore.com - 763-425-7890 / 800-328-2350

applications. The I-Drive is an innovative brushless DC motor with no moving parts for outstanding efficiency and reliability. With variable speed operation, a tachometer and error output, and with fwd/rev capabilities, the I-Drive IMS is the right choice for many designs.
