PRODUCT DESCRIPTION

GENERAL UTILITY PUMPS

Designed for use where low flow or transfer duties in both domestic and industrial applications are required, these self-priming pumps can achieve

www.pfcstore.com - 763-425-7890 / 800-328-2350

suction lifts up to 26 feet. Simple design and construction provide extended pump life with minimal routine maintenance.

FEATURES

- Progressing cavity pump principle ensures steady output pressure and non-pulsing flow with minimal slippage—a very useful feature when pumping heating oil to burner nozzles for example
- Smooth action and resilient rubber stator ensures quiet running—ideal for light industrial and domestic installations
 - Simple design and easy dismantle
- An abrasion and chemical resistant stator for handling viscous liquids and random solids
- Available as cast iron, stainless steel or engineered co-polymer bodies
 - High quality stainless steel rotating parts
- Available either bareshaft or coupled with a motor

TYPICAL APPLICATIONS

- Dosing applications
 - Light creams
 - Shampoo
 - Cosmetics
- Diesel/fuel oils
- Water sampling
- Hydraulic/lubricating oils
 - Cellar drainage
- Septic tank/cesspit emptying
 - Garden sprinkler systems
- Water supply from wells or rivers
