Categories: Cartridge Filters, Inventory Sale!

Part Number MS20CG1

PRODUCT DESCRIPTION

• Shelco string wound recognized as the industry standard for high quality wound filters – these filter cartridges last 2-3 times longer than standard melt-blown or spun bond cartridges
• Computerized production machinery produces precise geometric patterns to ensure high efficiency, superior dirt-holding capacity and repeatable performance
• Wide range of media and core materials to meet most temperature and chemical compatibility requirements

• Available in 0.5 – 150 micron ratings
• Ideal for removing solids from liquids, compressed air or gases
• Independently tested to have the highest efficiencies in the industry
