Model Number EJ-B11VCURA

Part Number NA

## **PRODUCT DESCRIPTION**

## High Speed Performance

The EJ Series operate at 360 strokes-per-minute, providing high resolution chemical feed and high turndown capability. Most competitive products operate at slower speeds, resulting in slug feeding, accelerated diaphragm wear and poor feed control.

Universal Voltage

The Universal Voltage Function enables the EJ Series to operate at any

#### www.pfcestore.com - 763-425-7890 / 800-328-2350

AC voltage. The EJ Series also conform to global Standards.

### External Control

The EJ Series have both digital input and Stop/Start inputs built into the pump, enabling either proportional or On/Off control.

## IP65 Equivalent Protection

A robust housing protects the pump from normal wear. Mounting the Digital Display and Key Pad control within the drive housing creates a highly water resistant design. A clear cover further protects the pump from liquids.
