# **PRODUCT DESCRIPTION**

#### High Speed Performance

The EJ Series operate at 360 strokes-per-minute, providing high resolution chemical feed and high turndown capability. Most competitive products operate at slower speeds, resulting in slug feeding, accelerated diaphragm wear and poor feed control.

### Universal Voltage

The Universal Voltage Function enables the EJ Series to operate at any

PFC eStore Pumps, Filters & Controls store with B2B

AC voltage. The EJ Series also conform to global Standards.

### • External Control

The EJ Series have both digital input and Stop/Start inputs built into the pump, enabling either proportional or On/Off control.

### IP65 Equivalent Protection

A robust housing protects the pump from normal wear. Mounting the Digital Display and Key Pad control within the drive housing creates a highly water resistant design. A clear cover further protects the pump from liquids.
