The SMART Digital Dosing series operates at full stroke length to ensure optimum accuracy, priming and suction, even for degassing liquids. The duration of each discharge stroke varies according to the capacity set, resulting in optimum smooth and continuous discharge flow.</p> <p>The click-stop mounting plate allows installation in three different positions without using any additional accessories. The dosing flow can be adjusted by means of an adjustment knob on a logarithmical scale from 0.1-100%.</p> <p>The dosing head is composed of:</p> <ul style="list-style-type: none">- Long lifetime and universal chemical resistant Full-PTFE diaphragm.- Double ball valves for highest dosing accuracy.- Deaeration valve for easy start-up. <p>Operation modes:</p> <ul style="list-style-type: none">- Manual dosing from 0.1 to 100%.- Pulse control (divisor function included). <p>Other features:</p> <ul style="list-style-type: none">- 100 % key (max. capacity), e.g. for deaeration.- Operation mode switch key between manual and pulse.- Status LEDs for pulse and manual.- Mechanical lock to protect the pump against unauthorized access. <p>Signal- Inputs/outputs:</p> <ul style="list-style-type: none">- Input for pulse, external stop.- Input for empty tank signal.- 2 potential free output relays for max. 30 V AC/DC (configurable, alarm, low level, full stroke signal and pulse) <p>Controls:</p> <table><tr><td>Control variant:</td><td>PR</td></tr><tr><td>Ext.
